GROSGRAIN

2023 Carignan

Walla Walla Valley

100% Carignan

Carignan is one of our favorite varieties, which is why you find it planted at both of our estate vineyards. As a very late ripening variety, we tend to harvest Carignan at the end of the season resulting in wines with bright red fruit, light body and low alcohol levels, making this one of our freshest and most drinkable red wines. There is a certain minerality in wines from volcanic regions (Sicily, Campania, Canary Islands, etc.) and due to the volcanic soils at Grosgrain Vineyard, this wine has it in spades. Very approachable now, but should develop nicely over the next few years as well.

Translucent ruby-colored with chalky tannins and aromas of cherry, redcurrant, violets, wild sage and volcanic stone.

Aged 11 months in neutral French oak barrels.

CASES: 145
ALCOHOL: 12%
PH: 3.85
